

Zakatul Fitr Distribution

App Feature Summary

Overview

This app organizes the Zakatul Fitr distribution workflow for recipients, mosque admins, and volunteer drivers. The goal is to keep request intake, review, driver coordination, and delivery status visible in one place.

Feature Summary

#	Feature	What it covers
01	Recipient intake	Families submit contact details, address, household size, and delivery instructions for one Zakatul Fitr food box request.
02	Request tracking	Recipients and admins can follow each request from submission through review, approval, driver assignment, and delivery.
03	Admin operations	Admins review requests, monitor delivery counts, approve volunteer drivers, and view family-size reporting.
04	Driver workflow	Approved volunteer drivers can see available deliveries, claim a delivery, and review recipient contact and address details.

Main dashboards: Recipient, Admin, and Driver.
